Introduction

Mother Teresa was born in 1910 in Skopje, Macedonia. She came to India and founded the Missionaries of Charity in 1950. She always wanted to care for the uncared, oppressed and poor. She started an open-air school for underprivileged children. With that, she started her life of service for the poorest of the poor. More volunteers came forward to help financially and to

help take care of the destitute. She came to be fondly called 'Mother' by all. She was awarded the Nobel Prize and the Bharat Ratna for her selfless service. She is an irreplaceable soul that Mother India can ever get.

I see God in every human being. When wash the leper's wounds, I feel I am nursing the Lord himself. Is it not a beautiful experience?
